Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Hanzek U.S. Patent No. 6,654,726.

Referring to claim 1. Hanzek discloses a purchase order tracking method for use by a manufacturer to allow a customer issuing an electronic purchase order to the manufacturer to track the progress of purchase order manipulation by the manufacturer; the method comprising the steps of:

(a) Receiving the electronic purchase order (Figure 1);

(b) Establishing a purchase order manipulation progress report for the received electronic purchase order (column 12, line 30 to column 13, line 18);

(c) Recording related data into the purchase order manipulation progress report at the completion of each stage of the progress of purchase order manipulation by the manufacturer (column 12, line 30 to column 13, line 18); and

(d) Downloading the purchase order manipulation progress report into a network linked database linked to a network server linked to a network system, so as to allow the customer to gain access to the purchase order manipulation progress report by linking via the network system to the network server and view the contents of the purchase order manipulation progress report through a browser program (column 12, line 30 to column 13, line 18).

Referring to claim 2. Hanzek further discloses a purchase order tracking method wherein an EDI platform is used to receive the electronic purchase order (column 16, lines 40-51).

Referring to claim 3. Hanzek further discloses a purchase order tracking method wherein the network system is Internet (column 3, lines 15-19).

Referring to claim 4. Hanzek further discloses a purchase order tracking method wherein the network server is a Web server (Figure 2).

Referring to claim 5. Hanzek further discloses a purchase order tracking method wherein in said step the browser program is Microsoft Internet Explorer (column 7, line 46 to column 8, line 5).

Art Unit: 3625

Referring to claim 6. Hanzek further discloses a purchase order tracking method wherein the browser program is Netscape Navigator (column 7, line 46 to column 8, line 5).
